

Job offer!

Licensed Professional Engineer or Architect

In New York City

Swobbee US Corp.
C/O NEWLAB, 19 Morris
Avenue, Brooklyn, NY,
11205, USA

info@swobbee.com
www.swobbee.com

Swobbee is building a network of battery charging and swapping stations in NYC, allowing users to conveniently swap their e-bike batteries at a station, rather than charging at home. This eliminates range anxiety and ensures safe charging practices. Originally headquartered in Berlin, Germany, Swobbee is expanding to the US.

We're seeking a Licensed Professional Engineer or Architect in NYC to join Swobbee and play a critical role in our scale-up. This individual will work closely with key city agencies, including FDNY, DOB, and DOT, to ensure that all site plans meet regulatory standards and support our mission of sustainable urban mobility.

What You'll Do:

- » Develop site plans: Prepare and sign off on detailed site plans for Swobbee installations in compliance with regulations from relevant city agencies (FDNY, DOB, DOT, etc).
- » Respond to Agency questions: Respond promptly to comments and make adjustments as needed to site plans and documents to secure regulatory approvals.
- » Collaborate with stakeholders: Work closely with internal teams, city officials, contractors, and vendors to ensure all project milestones are met.
- » Technical planning and implementation: Support the rollout manager to organize resources, oversee construction activities, and manage external partners like electricians and general contractors from a technical perspective.
- » Problem-solve and adapt: Tackle unexpected challenges as they arise during the site planning and installation process.

Job offer!

Licensed Professional Engineer or Architect

About You:

- » **Licensed professional:** Must be a Registered Engineer or Architect with the State of New York.
- » **Site planning:** You have experience creating and approving site-specific plans and working with NYC agencies.
- » **Organized and detail-oriented:** You can manage complex, multi-faceted projects and ensure every detail is accounted for.
- » **“Do-er” mentality:** You are a self-starter with an agile personality who excels in navigating challenges, and driving projects to completion.
- » **A strong communicator:** You’re skilled at keeping diverse stakeholders informed, aligned, and engaged.
- » **Excited about urban innovation:** You’re passionate about sustainable mobility and enthusiastic about transforming NYC’s streetscape.

Requirements:

- » A current professional license as a Registered Engineer or Architect in New York State (mandatory).
- » 3+ years of experience in site planning, permitting, or construction coordination.
- » Proven experience in collaborating with city agencies, navigating permitting processes, and managing relationships with agencies such as FDNY, DOB, or DOT.
- » Previous experience with electrical infrastructure, construction, or revocable consent a big plus.
- » Strong communication skills and the ability to collaborate with diverse stakeholders.

Why join Swobbee?

At Swobbee, we’re more than just a tech company; we’re on a mission to build sustainable cities. As our in-house engineer or architect, you’ll play a pivotal role in shaping the future of micromobility in NYC and play a key role in a growing company. Furthermore, Swobbee offers competitive compensation and benefits packages.

If you’re eager to dive into the world of startups and play a critical role in shaping Swobbee’s success in the US, we’d love to hear from you!
