

Job offer!

Roll-Out Manager

In New York City

Swobbee US Corp.
C/O NEWLAB, 19 Morris
Avenue, Brooklyn, NY,
11205, USA

info@swobbee.com
www.swobbee.com

Swobbee is building a network of battery charging and swapping stations in NYC, allowing users to conveniently swap their e-bike batteries at a station, rather than charging at home. This eliminates range anxiety and ensures safe charging practices.

Originally headquartered in Berlin, Germany, Swobbee is expanding to the US, and we're seeking a **Licensed Engineer or Architect** in the state of New York to join Swobbee as a **Roll-Out Manager** to lead the technical and operational efforts of deploying our battery swapping stations across New York City.

This critical role will ensure the seamless planning, coordination, and execution of station installations on public and private property, navigating the unique requirements of New York City, including the revocable consent process.

What You'll Do:

- » Develop and manage roll-out plans: Create and maintain detailed technical schedules and project timelines for station deployment across NYC and NJ.
- » Coordinate site plans for revocable consent: Lead efforts to design, submit, and secure approval for site-specific plans in compliance with NYC's revocable consent unit.
- » Collaborate with stakeholders: Work closely with internal teams, city officials, contractors, and vendors to ensure all project milestones are met.
- » Oversee technical planning and implementation: Organize resources, oversee construction activities, and manage external partners like electricians and general contractors.
- » Problem-solve and adapt: Tackle unexpected challenges as they arise, ensuring installations remain on schedule and compliant with city regulations.

Job offer!

Roll-Out Manager

About You:

- » **Licensed professional:**
Must be a Registered Engineer or Architect with the State of New York.
- » **Organized and detail-oriented:**
You can manage complex, multi-faceted projects and ensure every detail is accounted for.
- » **“Do-er” mentality:**
You are a self-starter with an agile personality who excels in navigating challenges, and driving projects to completion.
- » **A strong communicator:**
You’re skilled at keeping diverse stakeholders informed, aligned, and engaged.
- » **Excited about urban innovation:**
You’re passionate about sustainable mobility and enthusiastic about transforming NYC’s streetscape.

Requirements:

- » A current professional license as a Registered Engineer or Architect in New York State (mandatory).
- » 3+ years of experience in project management, technical roll-outs, or construction coordination.
- » Proven experience in collaborating with city agencies, navigating permitting processes, and managing public property installations.
- » Ability to lead multiple projects simultaneously while meeting deadlines.
- » Previous experience with electrical infrastructure, construction, or revocable consent a big plus.

Why join Swobbee?

At Swobbee, we’re more than just a tech company; we’re on a mission to build sustainable cities. As our Roll-Out Manager, you’ll play a pivotal role in shaping the future of micromobility in NYC and play a key role in a growing company.

Furthermore, Swobbee offers competitive compensation and benefits packages.

If you’re eager to dive into the world of startups and play a critical role in shaping Swobbee’s success in the US, we’d love to hear from you!
